# TRADING IS LIGHT

Pacific Deals Feature the Early Trading.

NOTE—All market news on this page reflects closing sale prices (unless buy or bid be specified) Monday, Aug. 11.

New York, Aug. 11.—The one feature of interest in today's early market session was the announcement by the Union Pacific directors of the subscription price for its Southern Pacific holdings—92, with accumulated dividends. Southern Pacific, which, in common with other active issues, had shown some initial heaviness, fell over a point from last Saturday's price as the subscription terms became known, after which it moved feverishly.

Everywhere the market reflected continued irregularity, advances being confined to issues or minor speculative importance, except Canadian Pacific, which rose over a point. Trading was light and listless and bonds were irregular.

Weakness of corn and wheat corroborated reports of improvement to reports from yesterday's rains. The grain carriers moved up sharply and there was a better tone generally to the entire market.

The list was left entirely to its own was a better tone generally to the en-tire market.

The list was left entirely to its own devices or to those of the trading ele-ment in the later session, and that fac-tion apparently chose to adopt a walt-

ing policy.

The market closed strong. Speculation became lively in the closing hour and prices rose subsequently. Shorts took alarm at the appearance of some large purchasing orders for Steel, and they covered hastily in afternoon trading. Steel, Union Pacific and Reading sold two points over Saturday, and Canadian Pacific gained four.

Union Pacific and Southern Liberal World Shipments Ease Price of Wheat: Provisions Are Higher.

Chicago, Ill., Aug. 11.—Corn prices broke today on account of the ending of the drouth in Iown and because of rain in northern illinois and some other parcs of the belt. Selling was very free, bearish sentiment being increased by heavier offering of old corn on the part of country holders. There were signs, however, of many resting orders to purchase on the decline. The opening was 1 to 13c lower. December, which started at \$5% to \$5%c, a loss of 1 to 1% to 1%c, finally railied to 5%%c.

ember % to % to %c lower at 55% to 15% c.

Beneficial moisture northwest and liberal world shipments eased wheat. December opened % to %c down at \$25% c.

The close was firm with December at \$24% c, the same at Saturday night. December oats, which at the outset was 43% to 43% c, showing a fall of % to %c, touched 43% c and then reacted to 43% c.

The first sales of provisions were 2% c lower to 5c higher, with January options as follows: Pork, \$13.15; lard, \$10.724; ribs, \$10.12%.
